

EURIZON FELLOWSHIP PROGRAMME: “Remote Research Grants for Ukrainian Researchers”

Call for Applications

The STCU and the EURIZON secretariat is pleased to announce the launch of the new **EURIZON Fellowship Program: “Remote Research Grants for Ukrainian Researchers”** dedicated to supporting Ukrainian researchers whose work is hampered or prevented by Russia’s war against Ukraine. The programme is addressing teams of **vulnerable researchers and other relevant staff from Ukrainian research institutes** (PhD students, engineers, technicians, etc.) **from all scientific domains**.

These temporary grants, funded by the European Union (through EURIZON H2020 project, grant agreement 871072) are intended to enable **Ukrainian research teams to continue their scientific work, remotely, by carrying on research projects in collaboration with partners from European research institutes**. The proposed research projects can have a duration of 6 or 12 months. Research teams can be composed by 2 to 5 (and more) members.

The projects can be carried out, remotely, from any place in Ukraine. *The EURIZON fellowship programme will provide support in the form of research grants only to Ukrainian applicants (not to their European partners).*

The **Eligibility criteria** and the **rules for application** are included in the **Terms of Reference for applicants**, available on the indico portal: <https://indico.desy.de/event/38700/>

Applications must be submitted by the **Principal Investigators (PIs)** on behalf of their research teams from Ukraine through the **online application form** of the portal: <https://indico.desy.de/event/38700/>.

Further information:

Opening of the call for applications **April 3rd, 2023 at 12:00** (noon) CEST

Deadline for applications: **May 8th, 2023 at 12:00** (noon) CEST

Application form and **Terms of Reference for applicants**: <https://indico.desy.de/event/38700/>

Notification of the evaluation process outcomes: June 2023

Start of the fellowships: July 2023
