Independent Auditors' Report

To the Board of Governors Science and Technology Center in Ukraine

Report on the Financial Statements

We have audited the accompanying financial statements of the Science and Technology Center in Ukraine (hereinafter "STCU"), which comprise the statement of financial position as at 31 December 2013, the statements of revenues and expenditure, movements in capital contributions and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies, as set out on pages 3 to 11, and other explanatory notes, as set out on pages 17 to 34.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and for such internal controls as management determines are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Basis for Qualified Opinion

The terms of the project agreements, concluded between the Science and Technology Center in Ukraine and the recipient institutes, state that grant costs for a specific period of time may not be claimed by the recipient institutes if they are receiving reimbursements from other funding sources for the same period of time. Due to our inability to access appropriate records of the recipient institutes we were unable to satisfy ourselves as to whether the grant claims made by the recipient institutes include amounts for which they may have received reimbursements from other funding sources. There were no alternative audit procedures that we could adopt to confirm this.

Qualified Opinion

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we been able to satisfy ourselves as to funding from multiple resources, the financial statements give a true and fair view of the financial position of the Science and Technology Center in Ukraine as at 31 December 2012, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Emphases of Matter

Without further qualifying our opinion we draw attention to accounting policies on Property and equipment disclosed on page 7 of these financial statements. Property and equipment used for both the STCU administrative purposes and the projects funded by the STCU, which have useful lives extending beyond the current year, were expensed immediately on acquisition to the statement of revenues and expenditure. The management of the Science and Technology Center in Ukraine believe that because of the unusual nature and circumstances of its activities this treatment properly matches the revenues specifically contributed by the Funding Parties with the related expenditure, despite departing from the requirements of International Accounting Standard 16 Property, plant and equipment.

We also draw attention to Note 17, which describes the significant deterioration in Ukraine's political and economic situation since late November 2013 and the events in Crimea in March 2014, and management's assessment of potential impact of the events in Ukraine on the STCU's operating activities, its ability to continue as a going concern, and the financial statements as at and for the year ended 31 December 2013.

KPMG Baltics SIA

Armine Movsisjana Member of the Board Riga, Latvia

11 April 2014

ACCOUNTING POLICIES

Overview of the Science and Technology Center in Ukraine (STCU)

The Science and Technology Center in Ukraine (STCU) is an intergovernmental organization dedicated to nonproliferation of technologies and expertise related to weapons of mass destruction, including nuclear, biological and chemical weapons, and their delivery systems.

The United States, Canada, Sweden and Ukraine signed the agreement establishing the Science and Technology Center in Ukraine on October 25, 1993 (referred to as "the STCU agreement"). The European Communities acceded to the STCU agreement on November 26, 1998, and in so doing, replaced Sweden as a party to the STCU agreement.

The STCU helps develop, finance and monitor science and technology projects that engage the former Soviet weapons community in Ukraine, Azerbaijan, Uzbekistan, Georgia, and Moldova in peaceful civilian activities. The Funding Parties of STCU projects include: the signatories to the STCU agreement, Japan as a sponsor of the STCU agreement and Partners (government and non-government) approved by the Board of Governors.

The STCU is a legal entity and has been registered by the Ministry of Foreign Affairs of Ukraine as an intergovernmental organization with its headquarters in 7a Metalistiv Street Kyiv 03057. During the financial year STCU had an international staff of 43 (2012 – 49) full time scientific, financial and administrative experts.

Basis of Preparation

The financial statements represent the results of the STCU as an individual entity and have been prepared under the historic cost convention and in accordance with applicable International Financial Reporting Standards (IFRS) taking into consideration the departure from International Accounting Standard (IAS) 16 relating to Property, plant and equipment as explained in the policy for Property and equipment.

These financial statements were approved by the management of the STCU on 11.04.2014. The Governing Board of the Science and Technology Center in Ukraine will approve the financial statements at the next Governing Board meeting and have the power to amend the financial statements after issue or request the preparation of new financial statements.

In these financial statements statement of comprehensive income is called "the statement of revenues and expenditure", the statement of financial position is called "the balance sheet" and the statement of changes in equity is called "the statement of movements in capital contributions".

Functional and Presentation Currency, Foreign Currency Transactions

The U.S. dollar is the functional currency for the STCU. Accordingly, these financial statements have been prepared using U.S. dollars as the presentation currency. Use of the U.S. dollar best reflects the economic substance of the transactions and circumstances of the STCU.

ACCOUNTING POLICIES

All foreign currency transactions are converted into USD at the exchange rates prevailing at the date of the transaction. Foreign currency gains and losses resulting from movements in the exchange rates between the date of the transactions and the date of settlement are charged to the Statement of Revenues and Expenditure under the administrative operating budget in the period incurred. Activities in Azerbaijan, Uzbekistan, Georgia, and Moldova are transacted in USD or Euros and, therefore do not result in any gains or losses from currency exchanges except those arising from USD to Euro exchange differences.

Assets, liabilities and capital denominated in foreign currencies are translated into USD at the rates of exchange ruling at the balance sheet date.

The net revaluation (losses)/gains principally relate to amounts contributed or receivable from Funding Parties in currencies other than USD which are held in the source currency of the original contribution. These notional cash (losses)/gains are fully offset by revaluations of Funding Parties capital accounts held in a source currency other than USD. Revaluation (losses)/gains are not actual cash movements but a reflection of the changing value of the source currency. Revaluation gains or losses are recognized in Administrative operating budget expenditure. Effect of revaluation of Funding Parties capital accounts held in a source currency other than USD is reflected through other comprehensive income.

Foreign currency risk is managed as set out in the Note 15.

European Union Funded Projects

Project agreements are concluded in Euros if solely funded by the European Union, and in USD if projects are jointly funded.

For project agreements concluded in USD (jointly funded), the European Union provides funding in Euros, before the projects are signed by the STCU Executive Director. The STCU immediately converts the Euros upon receipt into USD. The total amount of USD provided by the European Union is therefore known before the start of the project, and thus the project agreements are written to match the amounts of USD received.

Project Activity

The STCU authorizes and funds scientific projects which are performed at institutions within Ukraine, Azerbaijan, Uzbekistan, Georgia, and Moldova. Projects are financed by the Funding Parties either individually or jointly. All project agreements include a maximum amount of funding to be provided by the Funding Parties.

ACCOUNTING POLICIES

The project activity is accounted in the financial statements as follows:

Project Recognition

The projects are only recognized after signature of the project agreement between the STCU and the recipient institutes. Upon signature, the total project value is credited to the relevant Funding Parties Designated Capital Account in proportion to the level of funding agreed by each party. To the extent that the value of the signed projects are not covered by advance payments from the respective Funding Parties, a receivable is set up in the financial statements, which is subsequently covered by either transfers from Undesignated Capital Contributions Accounts or direct disbursement by the Funding Parties.

Project Expenditure

Project costs consist of three main components: grants to scientists, equipment and overhead. The STCU, being a non-profit making inter-governmental organization, does not envisage that any economic benefits will accrue to it in the foreseeable future from the financing of these projects. Accordingly all project costs incurred, including the purchase of project equipment, are charged immediately to the Statement of Revenues and Expenditure. Projects are performed on a cost reimbursable basis, with a ceiling of funds specified in the project agreements.

The STCU temporarily retains 50 percent of the allowable overhead for the individual projects, in accordance with the project agreements, until the submission, and acceptance of, the financial and technical reports prepared by the project recipients. The overhead retainage is recognized as part of amounts payable – projects.

When a project has been completed or terminated, any funds committed in excess of actual costs are credited back to the relevant Funding Parties' Undesignated Capital Contributions Account in the same proportion as the initial contributions from the Funding Parties.

Project Revenues

Project revenues recognized during the year in the Statement of Revenues and Expenditure are amounts equal to the total value of project expenditure incurred and expensed during the year. These revenues are transferred from the Funding Parties Designated Capital Accounts for Projects to the Statement of Revenues and Expenditure.

Administrative and Supplemental Revenues and Expenditure

Administrative Operating Budget

Administrative Revenues recognized in the Statement of Revenues and Expenditure during the year equate to the amounts approved by the Board of Governors for the Administrative

ACCOUNTING POLICIES

Operating Budget for the year. The budget is set and agreed at meetings of the Board of Governors in the previous financial year. The agreed budgeted amounts are transferred from the Designated Capital Accounts for Administrative Expenses of the United States, Canada, the European Union, and Ukraine.

Administrative Expenses are charged to the Statement of Revenues and Expenditure when incurred and are matched against the Administrative Revenues for the year.

Any surplus/(deficit) Administrative Revenues arising during the year are re-allocated to the Undesignated Capital Contributions Accounts of the United States, Canada, and the European Union in the same ratio as the Administrative Revenues contributions in the same proportion as the initial contributions

Supplemental Budget

Supplemental Budgets are approved by the Board of Governors to provide funding for activities that are outside the scope of the Administrative Operating Budget and not directly related to the implementation of projects. Upon agreement of the Supplemental Budgets at Governing Board Meetings the total amount of such budgets approved are credited to the relevant Funding Parties' Designated Capital Accounts for Supplemental Budgets in proportion to the level of funding agreed by each party.

Supplemental Budget expenses are charged to the Statement of Revenues and Expenditure when incurred. Supplemental Budget revenues recognized in the year are amounts equal to the value of the Supplemental Budget expenditure incurred in the year. These revenues are transferred to the Statement of Revenues and Expenditure from the Funding Parties' Designated Capital Accounts for Supplemental Budgets.

Partner Fees and Interest

Partner projects may be charged a fee, usually 5% of the total project cost, for the services provided by the STCU to administer the project, which are recognized in the Statement of Revenues and Expenditure. The surplus partner fees are allocated to the Undesignated Capital Contributions Accounts of the United States, Canada, and the European Union in the same ratio as their Administrative Revenues contributions.

Interest earned on Funding Party bank accounts is recognized in the Statement of Revenues and Expenditure as finance income. Surplus interest earned is allocated to the Funding Parties Undesignated Capital Contributions Accounts, with the exception of Partner interest earned, which is allocated to the Undesignated Capital Contributions Accounts of the United States, Canada, and the European Union in the same ratio as their Administrative Revenues contributions. Interest earned on administrative and supplemental bank accounts is allocated to the Undesignated Capital Contributions Accounts of the United States, Canada, and the European Union in the same ratio as their Administrative Revenues contributions.

ACCOUNTING POLICIES

Property and Equipment

Property and equipment are acquired either for the STCU own use or for the projects and comprises of the following:

Center

Property and equipment acquired by the STCU for administrative operations consist of vehicles, office furniture and equipment, including computer hardware and software and communications devices. All commitments and expenditures for administrative equipment are made in accordance with the Board's approved annual budget. The cost of the STCU equipment is charged to the Statement of Revenues and Expenditure when acquired.

Project Equipment

Under the terms of the individual project agreements signed, title to equipment costing less than 2,500 USD is vested with the recipient institutes upon acquisition. The title to all other equipment provided to projects will remain with the STCU until termination or completion of the project, at which time the title will be vested in the recipient institutes unless prior to, or on that date, the STCU informs the project of its intention to retain title.

Since the STCU does not expect to derive any foreseeable economic benefits from the ownership of project equipment, the expenditure incurred during the year on equipment under each project, is written off to the Statement of Revenues and Expenditure.

International Accounting Standard ("IAS") 16 "Property, Plant and Equipment" requires non-current assets to be capitalized and depreciated over their useful economic lives. Due to the project-based nature of STCU's operations, management believes the application of these requirements would result in improper matching between the revenues contributed by the Funding Parties with the related expenses, and, accordingly conflict with the fair presentation objective of these financial statements. As a result, non-current assets acquired for use by participating institutes as part of the projects are charged to the Statement of Revenues and Expenditure upon acquisition.

Based on the management assessment, the average useful life of such non-current assets is 5 years. Total purchases of non-current assets over the last years were as follows:

	2013 USD
2008	1,992,006
2009	1,635,384
2010	1,605,175
2011	1,082,115
2012	1,725,653
2013	717,196
	8,757,529

ACCOUNTING POLICIES

Grantee benefits

All individuals providing services to the STCU as part of their employment agreements are considered grantees. Short term grantees benefits, including staff grants, bonuses, vacations and other benefits are included in expenses on an accrual basis. The STCU has no obligations to pay further contributions relating to grantee services in respect to payroll taxes and any pensions on the retirement of grantees.

Taxation

Under the terms of the agreement establishing the STCU and also the Statute approved by the Board of Governors, the STCU is exempted from any form of taxation. However, only since December 1999 has the relevant legal framework been implemented in Ukraine, allowing the STCU to recover its VAT on administrative expenditures.

The VAT incurred on project expenditures has been charged to the Statement of Revenues and Expenditure as part of the project costs because, for the time being there is no practical process in place for the recovery of VAT for project purchases within Ukraine, Georgia, Uzbekistan, Moldova, and Azerbaijan. Management of the STCU continues discussions with the Governments of Ukraine, Georgia, Moldova, and Azerbaijan to investigate the possibility of establishing a procedure to recover project VAT for purchases made within these respective countries. However, the management of the STCU does not expect to recover the amounts incurred to date. Accordingly the VAT incurred on project expenditures has been charged to the Statement of Revenues and Expenditure as part of the project costs. Project items purchased abroad by the STCU and imported into Ukraine, Georgia, Uzbekistan, Moldova, and Azerbaijan are exempt from VAT.

The VAT on administrative expenditures for 2013 has been credited back to the corresponding expense account to which it relates.

Financial instruments

The STCU uses only non-derivative financial instruments as part of its normal operations. These financial instruments include bank accounts, certificates of deposit, receivables and amounts payable. All financial assets are classified as loans and receivables and all financial liabilities are classified as other liabilities accounted for at amortized cost.

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially on the date that they are originated at fair value plus any directly attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset. When calculating the effective interest rate, STCU estimates future cash flows considering all contractual terms of the financial instruments.

ACCOUNTING POLICIES

STCU derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by STCU is recognized as a separate asset or liability.

Financial liabilities are recognized initially on the trade date at which STCU becomes a party to the contractual provisions of the instrument at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortized cost using the effective interest method.

STCU derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, STCU has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less.

Capital management

The capital of the STCU is represented by the net assets attributable to Funding Parties. The STCU's objectives in managing capital are to safeguard the assets of the Funding Parties to enable the STCU to continue as a going concern and enable the future funding of project expenditure.

All significant capital decisions such as project funding, transfers of capital, investment of capital and returns of capital to Funding Parties, require approval by the Funding Parties at six-monthly meetings of the governing board or otherwise. As such, the management of the STCU does not actively manage its capital on a day-to-day basis.

Use of estimates

The preparation of financial statements in conformity with IFRSs requires management to make judgments, estimates and assumption that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results ultimately may differ from those estimates.

ACCOUNTING POLICIES

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period, in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty:

Accounting policy applied to Property and equipment: Please refer to accounting policy applied to Property and equipment, as described above.

Valuation of loans and receivables: There are a number of significant risks and uncertainties inherent in the process of monitoring financial assets and determining if impairment exists. These risks and uncertainties include the risk that STCU's assessment of funding party's or borrower's ability to meet all of its contractual obligations will change based on changes in the credit characteristics or that the risk that the economic outlook will be worse than expected or have more of an impact on the counterparty than anticipated.

Loans and receivables are valued according to the principle of prudence and recognized at net amount due less allowances for doubtful loans and receivables.

Doubtful debt allowances are recognized based on an individual management assessment of the recoverability of each receivable. Given the nature of the STCU funding providers, at the reporting date there was no direct exposure to potential impairment to be recognized in the statement of revenues and expenditure.

Fair values: Please refer to accounting policy described in Note 16.

Changes in accounting policies

There were no changes in accounting policies in the current year.

STCU has adopted the following new standards and amendments to standards, including any consequential amendments to other standards, with a date of initial application of 1 January 2013:

(i) Fair value measurement

IFRS 13 establishes a single framework for measuring fair value and making disclosure about fair value measurements when such measurements are required or permitted by other IFRSs. It unifies the definition of the fair value as the price that would be received to sell an asset or pad to transfer a liability in an orderly transaction between market participants at the measurement date. It replaces and expands the disclosure requirements about fair value measurements in other IFRSs, including IFRS 7. As a result, the ISTC has included additional disclosures in this regards (see Note 3).

In accordance with the transitional provisions of IFRS 13, ISTC has applied the new fair value measurement guidance prospectively and has not provided any comparative information for new disclosures. Notwithstanding the above, the change had no significant impact on the measurements of the ISTC's assets and liabilities.

ACCOUNTING POLICIES

(ii) Other amendments to standards

The following amendments to standards with effective date of 1 January 2013 did not have any impact on these consolidated financial statements:

- Amendment to IFRS 7 Offsetting of financial assets and liabilities
- Amendment to IAS 19 (2011) Employee benefits
- Amendments to IAS 12 Deferred tax: Recovery of Underlying Assets
- IFRS 10 Consolidated Financial Statements and revised IAS 27 (2011) Separate Financial Statements
- IFRS 11 Joint Arrangements
- IFRS 12 Disclosure of Interests in Other Entities
- Amendments to IAS 1 Presentation of Financial Statements: Presentation of Items of Other Comprehensive Income

New standards and interpretations not yet adopted

The following new Standards and Interpretations are not yet effective for the annual period ended 31 December 2013 and have not been applied in preparing these financial statements:

Amendments to IFRS 10, IFRS 12 and IAS 27 – Investment Entities (effective for annual periods beginning on or after 1 January 2014; to be applied retrospectively subject to transitional provisions);

Amendments to IAS 19 – Defined Benefit Plans: Employee Contributions (effective for annual periods beginning on or after 1 July 2014; the amendments apply retrospectively);

Amendments to IAS 36 – Recoverable Amount Disclosures for Non-Financial Assets (effective for annual periods beginning on or after 1 January 2014; to be applied retrospectively)

Amendments to IAS 39 – Novation of Derivatives and Continuation of Hedge Accounting (effective for annual periods beginning on or after 1 January 2014; to be applied retrospectively

IFRS 9 Financial Instruments (Effective for annual periods beginning on or after 1 January 2018; to be applied prospectively).

Accompanying summary of accounting policies, as set out on pages 3-11 and notes, as set out on pages 17-34, form an integral part of these financial statements.

Signed on behalf of

The Science and Technology Center in Ukraine 11 April 2014.

Curtis M. Bjelajac

Executive Director

Marina Dzubinska

Acting Chief Financial Officer

1. Project Expenditure

	USD
Amounts charged to the Statement of Revenues and Expenditure:	
2013	12,969,568
2012	14,919,329
2011	13,256,863
2010	14,938,320
2009	15,902,171
2008	18,657,918
2007	19,305,482
2006	17,434,164
2005	16,291,450
2004	17,675,237
2003	17,937,532
2002	12,317,194
2001	10,100,633
2000	7,096,198
1999	7,904,566
1998	7,351,641
1997	4,987,540
1996	1,339,245
1995	
Cumulative project costs incurred to 31 December 2013	230,385,051

Project expenditure comprises of grants to scientists, equipment costs, travel costs and overhead costs.

2. Administrative Expenditure

	2013 USD	2012 USD
a) Administrative Operating Budget	CSD	USD
Business Operations	210,350	234,950
Public Affairs	19,177	24,001
Personnel	663,996	704,987
Personnel Support and Development	150,591	160,113
Legal, Auditing and Banking	162,926	133,846
Property and equipment	16,185	33,513
Net foreign exchange (gains)	(118,593)	(61,304)
Headquarters and Branch Offices	26,681	28,209
	1,131,313	1,258,315

2. Administrative Expenditure (continued)

Personnel costs comprises grants made to the grantees in the STCU headquarters and four regional offices located in Kharkiv, Baku, Chisinau, and Tbilisi.

From March 2009, the STCU have occupied offices provided by the Ukrainian government for which the STCU does not pay rental or utility charges. No reliable estimate can be made of the fair value of the rental and utility benefit provided in 2012. In 2013 the estimated fair value of the rent, utility and security benefit is USD 203,269.

	2013	2012
	USD	USD
b) Supplemental Budget		
Technical, Collaborator and Contractor Travel Support	6,774	25,063
Business Training/ Sustainability Group Support	63,246	79,115
Patent Support	4,107	-
Travel and Mobility Support	74,487	204,288
Expert Review and Advisors	22,021	26,340
Seminars/ Workshops Support	-	1,961
Service Contracts (Key management remuneration)	916,646	1,388,558
Partner Promotion and Support	163,778	180,328
Consulting Projects	36,934	-
	1,287,993	1,905,653

3. Net Surplus Revenues Over Expenditure

The net surplus of 522,653 USD comprises the following:

2013 USD	2012 USD
288,986	163,614
184,467	250,387
49,200	406,894
-	30,561
522,653	851,456
	288,986 184,467 49,200

The net surplus set out above has been allocated to the Funding Parties in accordance with the accounting policies and agreed responsibilities.

4. Amounts Due from Funding Parties – Due Within One Year

	2013 USD	2012 USD
European Union	275,358	-
United States	1,035,513	758,741
Partners	4,665,354	4,249,391
	5,976,225	5,008,132
Amounts Due From Funding Parties – Due After One	Year 2013 USD	2012 USD
European Union	39,872	264,360
Partners	1,829,121	3,555,626
	1,868,993	3,819,986
Total due from Funding Parties	7,845,218	8,828,118

Included within Amounts Due from Funding Parties at 31 December 2013 is USD 782,854 relating to the ongoing projects in Crimea. Please refer to Note 17 for further details on the uncertainty associated with Crimean political situation.

5. Other receivables

	2013 USD	2012 USD
VAT recoverable Other receivables	6,224 1,957 8,181	12,948 21,118 34,066
6. Prepayments and accrued income		
	2013 USD	2012 USD
Prepayments Accrued Interest	5,578 141,459 147,037	9,022 237,949 246,971

7. Cash and cash equivalents

	2013 USD	2012 USD
Cash on hand	3,258	5,376
Non-interest bearing accounts	400,212	421,079
Short-term deposits	31,509,065	31,726,970
	31,912,535	32,153,425

Cash and cash equivalents are placed in Ukranian and foreign banks. Interest rates earned on interest bearing deposits is between 0.10% and 3.00% depending on the risk profile of the country of placement.

8. Amounts payable – projects

	2013 USD	2012 USD
Grants Payable	1,036,024	1,194,590
Overhead Payable	61,647	71,820
Overhead Retainage	465,577_	475,235
	1,563,248	1,741,645

Overhead Retainage includes amounts which may be due for payment after one year depending on when the financial and technical reports are prepared and submitted by the project recipients and accepted by the STCU. Included within Overhead Retainage is 76,787~USD (2012-89,061~USD) in relation to projects with a completion date after more than one year from the balance sheet date.

Included within Amounts payable - projects at 31 December 2013 is USD 70,749 relating to the ongoing projects in Crimea. Please refer to Note 17 for further details on the uncertainty associated with Crimean political situation.

9. Designated Capital Contributions – Projects

Designated Capital Contributions (DCC) represent the amounts committed on signed projects net of project expenditures incurred to date.

	United States	Canada	European Union	Partners	Total
	USD	USD	USD	USD	USD
Balance at January 1, 2013	548,266	134,034	6,519,719	14,971,594	22,173,613

United States	1,955,857	4,516,082
European Union	4,057,236	3,176,112
	14,552,077	19,514,031

14. Financial Commitments

a) Science and Technology Center in Ukraine

No material commitments existed at December 31, 2013 or 2012.

b) Funding Parties

At December 31, 2013 the Funding Parties had approved but not signed 35 projects with a total funding of 2,767,099 USD (2012 – 1,766,186 USD). The agreements for these projects are expected to be signed in 2014.

15. Financial Risks

The STCU's financial instruments comprise:

Cash, liquid resources and receivables and payables that arise directly from the STCU's operations:

•	2013 USD	2012 USD
Financial assets		
Amounts due from Funding Parties	7,845,218	8,828,118
Cash and cash equivalents	31,912,535	32,153,425
Financial liabilities		
Amounts payable	1,807,334	1,880,399

The main risks arising from the STCU's financial instruments are liquidity risk, credit risk, and foreign currency risk. The STCU management reviews and agrees policies for managing each of these risks and they are summarised below.

15. Financial Risks (continued)

a) Liquidity Risk

Liquidity risk is the risk that the STCU will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. STCU's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses, and maintain net working capital surplus. The STCU's assets comprise mainly of cash and bank deposits which are readily realisable to meet funding commitments. Please refer to Note 17 for further details on the uncertainty associated with Crimean political situation and the potential impact on the STCU's liquid funds position.

b) Credit Risk

The STCU manage credit risk by only paying project expenses up to the amount of cash received from the relevant Funding Party. The credit risk is therefore limited to project expenses incurred in excess of cash received from the relevant Funding Party. At 31 December 2013 the maximum credit risk was 768,949 USD (2012 – 663,671 USD). Please refer to Note 17 for further details on the uncertainty associated with Crimean political situation and the potential impact on the STCU's credit risk.

The ageing of accounts receivable due from Funding Parties at the reporting date is as follows:

	2013 USD	2012 USD
Not past due	6,908,370	7,790,861
Past due < 1 year	929,939	827,326
Past due > 1 year	6,909	209,931
	7,845,218	8,828,118

Amounts past due include funds receivable under contracts without set payment dates before the project completion but not fully settled in the reporting year. The STCU expects to receive all amounts due in due course and as such has made no impairment allowance against these receivables.

c) Foreign Currency Risk

The STCU's income and expenditure and net assets could be affected by currency translation movement as some of the STCU's assets and revenues are denominated in currencies other than USD. The STCU manages foreign currency risk through keeping funds in the currency of commitment (USD or Euros) and minimizing funds held in local currency.

15. Financial Risks (continued)

At the year end, financial assets and liabilities held by the STCU in currencies other than USD were as follows:

		2013		
	Amounts due from Funding Parties USD	Cash and cash equivalents USD	Amounts payable USD	
Euros Ukrainian Hryvna Azeri Manat Georgian Lari	1,183,094	14,354,551 25,066	454,594 19,608	
	- -	7 569	- -	
	1,183,094	14,380,193	474,202	
	2012			
	Amounts due from Funding Parties USD	Cash and cash equivalents USD	Amounts payable USD	
Euros Ukrainian Hryvna Azeri Manat	2,191,203	13,874,983	617,784	
	- -	8,292	20,896 706	
	2,191,203	13,883,275	639,386	

The following table details the effect on the Net Surplus and Capital Contributions at December 31, 2013 from a 10% change in US dollar exchange rates against the exposed currencies listed above, with all other variables held constant.

15. Financial Risks (continued)

c) Foreign Currency Risk (continued)

	2013		201	12	
	Effect on Net Surplus USD	Effect on Other Comprehensive Result USD	Effect on Net Surplus USD	Effect on Other Comprehensive Result USD	
USD increase by 10% against:					
Euros	(65,696)	(1,389,053)	(70,230)	(1,334,170)	
Ukrainian Hryvna	(4,061)	(4,061)	1,146	1,146	
Azeri Manat	(1)	(1)	(71)	(71)	
Georgian Lari	(52)	(52)	-		
	(69,810)	(1,393,167)	(69,155)	(1,333,095)	
USD decrease by 10% against:					
Euros	72,266	1,527,958	77,253	1,467,587	
Ukrainian Hryvna	4,467	4,467	(1,260)	(1,260)	
Azeri Manat	1	1	64	64	
Georgian Lari	57	57	_		
_	76,791	1,532,483	76,057	1,466,391	

The method used to arrive at the possible risk of 10% was based on both statistical and non-statistical analyses. The statistical analysis has been based on currency movement for the last five years. This information is then revised and adjusted for reasonableness under the current economic circumstances. A standard rate of 10% is considered possible given past volatility trends.

d) Concentrations of Risk

Management has determined that the only significant concentration of risk arises in respect of the holding of the majority of cash and cash equivalents at a small number of financial institutions at the balance sheet date as follows:

	Location	2013 USD	2012 USD
Deutsche Bank	USA	17,358,899	18,229,011
BNP Paribas	Belgium	14,342,420	13,807,984
OTP Bank	Ukraine	128,016	8,734
Other	Various	83,200	107,696
		31,912,535	32,153,425

Management does not consider the risk exposure suffered as a result of this concentration of assets to be significant. The cash funds placed with credit institutions in Ukraine are current accounts in nature and are used for everyday operations only.

16. Fair Values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which STCU has access at that date. The fair value of a liability reflects its non-performance risk.

When measuring the fair value of an asset or a liability, STCU uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

STCU recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

The STCU has performed an assessment of its financial instruments, as required by IFRS 7 Financial Instruments: Disclosures, to determine whether it is practicable within the constraints of timeliness and cost to determine their fair values with sufficient reliability. The estimated fair values of all financial assets and liabilities are calculated using discounted cash flow techniques based on estimated future cash flows and discount rates for a similar instrument at the reporting date.

Due to the mostly short-term nature of the STCU financial assets and liabilities and minimal prevailing funds placement interest rates, the estimated fair values of all financial instruments of the STCU do not differ materially from their carrying amounts as at 31 December 2013 and 2012.

17. Subsequent events

Withdrawal by the Government of Canada

At the 35th STCU Governing Board meeting, the acting Canadian Governing Board member informed all meeting participants that the Government of Canada intends to formally withdraw from the Agreement to Establish the STCU in 2013. This intent resulted in liability to Canada in the amount of USD 78,809 recognized by STCU as at 31 December 2013.

• Political and Economic Situation in Ukraine

Ukraine's political and economic situation has deteriorated significantly since the Government's decision not to sign the Association Agreement and the Deep and Comprehensive Free Trade Agreement with the European Union in late November 2013. Political and social unrest combined with rising regional tensions has deepened the ongoing economic crisis and has resulted in a widening of the state budget deficit and a depletion of the National Bank of Ukraine's foreign currency reserves and, as a result, a further downgrading of the Ukrainian sovereign debt credit ratings. In February 2014, following the devaluation of the national currency, the National Bank of Ukraine introduced certain administrative restrictions on currency conversion transactions and also announced a transition to a floating foreign exchange rate regime.

Further, after a disputed referendum, on March 18, 2014 the President of the Russian Federation signed a treaty to absorb the Ukrainian territory of Crimea. As at the date of the approval of these Financial Statements, most governments do not formally recognize the annexation of Crimea and still consider Crimea to be a part of Ukraine. At 31 December 2013 the STCU had sixteen (16) projects ongoing at organizations located in Crimea with the following effect on the STCU's financial position as at 31 December 2013:

	2013 USD
ASSETS Amounts due from Funding Parties	782,854
LIABILITIES Amounts payable	70,749
CAPITAL CONTRIBUTIONS Designated capital – projects Undesignated capital	5,442,179 104,830

The future prospects of the aforementioned projects are unclear. As at the date of the approval of these Financial Statements, the projects are proceeding as planned; however, it is uncertain whether all or any projects would be completed within the normal course of STCU operations, or will be terminated prior to completion by one of the Parties.

Had all above projects been terminated as at 31 December 2013, Amounts due from Funding Parties would have decreased by USD 782,854, Capital Contributions would have decreased by USD 5,547,009 and Amounts due to Funding Parties would have increased by 4,764,155. Repayment of funds to the Funding Parties would reduce STCU's cash and cash equivalents by 15%. STCU management believes that while this would adversely affect the liquididty, it would not affect STCU's ability to continue as a going concern.

Whilst management believes it is taking appropriate measures to support the sustainability of the STCU's operations in the current circumstances, a continuation of the current unstable economic and political environment could negatively affect the STCU's financial position in a manner not currently determinable. These financial statements reflect management's current assessment of the impact of the Ukrainian economic and political environment on the operations and the financial position of the STCU. The future economic and political environment may differ from management's assessment. These financial statements do not include any adjustments for the impact of events in Ukraine that have occurred after the reporting date and are considered non-adjusting.

18. Related parties

Other than the parties to the agreement (The United States, Canada, Ukraine and the European Communities), there are no related parties. (2012 - None) All transactions with related parties have been undertaken on arm's length terms and are disclosed within capital contributions movements.

19. Contingent liabilities

There are no contingent liabilities to report in 2013. (2012 – None)
