RESULTS FOR TENDER IFT 2019-30

Mobile Laboratory: one (1) vehicle, radiological measurement equipment and reference materials to be fitted into the vehicle.

5th February, 2020

- The Science and Technology Centre in Ukraine (STCU) is an international organization involved in the non-proliferation of weapons of mass destruction. The STCU's activity is governed by the intergovernmental agreement to establish the Science and Technology Centre in Ukraine that had been signed by Canada, Sweden, Ukraine and the United States of America. Subsequently, the European Union replaced Sweden, and Azerbaijan, Georgia, Uzbekistan and Moldova joined the countries who had signed the Agreement. STCU's mission is to support research and development activities for peaceful applications by scientists and engineers formerly involved with the development of weapons of mass destruction, to advance global peace and prosperity through chemical, biological, radiological, and nuclear risk mitigation by supporting civilian science and technology partnerships and collaboration that address global security threats and advance non-proliferation.
- The STCU is currently carrying out the Project no.9816, which is sponsored by the European Union and being implemented in the framework of the EU Contribution Agreement INCS/2019/408-945 "Strengthening Nuclear Emergency Preparedness of the Georgian Agency of Nuclear and Radiation Safety (ANRS): Mobile Lab Supply G 4.01/19B". The project inter alia provides for the equipment and materials to create and equip one (1) mobile laboratory for the Georgian Agency of Nuclear and Radiation Safety (ANRS), Tbilisi Georgia.
- 3 The STCU has awarded contacts to the companies Lokmis and SMART DEFENCE, LLC for a total amount 415.425,00 EUR based on results of tender procedure.
